He describes the experiments conducted by psychiatrists to create amnesia, new identities, hypnotic access codes, and new memories in the minds of experimental subjects. The funding of the experiments by the CIA, Army, Navy, and Air Force is proven from CIA documents and the doctors' own publications. BLUEBIRD proves that there was extensive political abuse of psychiatry in North America throughout the second half of the twentieth century, perpetrated not by a few renegade doctors, but by leading psychiatrists, psychologists, pharmacologists, neurosurgeons and medical schools."
